## MAYOR DIEHL WILL FIGHT RIPPER BILL.

Says He Will Not Surrender Seal of Pittsburg Until Courts Compel Him to Do So.

Pittsburg, Pa., March 1 .- The "Pittsburg Ripper bill," which passed the Legislature yesterday, will be fought vigorously by the resent city officers of Pittsburg and Allegheny, who, under the provisions of the

new act, are legislated out of office. In a signed statement, Mayor William J. Diehl of this city says he will retain his position as Mayor of Pittsburg until the nighest courts declare otherwise. Without the seal of Pittsburg no municipal acts are legal, and he asserts that he will keep the seal until the Supreme Court of the United States decides that he has no right to use it. The battleground, he says, will be in the courts and not in the City Hall, as a aeat in his office will not vest the new Recorder with the rights to be the city's

executive. When the new Charter will become effective is a question. The opponents of the bill figure not until August or September, even hough the act should be declared constitutional, while its advocates expect to take control as soon as the Governor appoints the Recorder or not later than the first of

ext month. This afternoon Comptroller Lewis en-counced that, after Governor Stone signs the Ripper bill and that measure becomes a law, he will refuse to recognize either Mayor Diehl or the new Recorder, or sign their warrants, until the courts decide who is the chief executive of the city. This would result in the stoppage of all city work and make it impossible to pay the officials or employes, pending the settlement of the litigation.

SPRING PLANTING

Unfavorable Reports Come From a Large Section of the Win-

MISSOURI CROP CONDITIONS.

ter Wheat Belt.

Some Damage From Alternate Freezing and Thawing-Agricultural Department's

The Republic Bureau, 14th St. and Pennsylvania Ave. Washington, March 1.-The following statement of crop conditions for February has been issued by the Agricultural Department. While the month has been cold in the

principal agricultural districts the precipitation was light and such farm work as is usually performed in winter has been conducted very satisfactorily. In the Southern States extensive preparations for spring planting have been made. In Southern Texas and in Florida some corn has been planted and oat seeding has begun in portions of the Central Gulf States. Over the southern portion of the winter wheat region, owing to general lack of snow protection and alternate freezing and thawing, the reports respecting winter wheat are for the most part unfavorable, but over the northern portion there has generally been ample snow covering, and the reports indicate that the crop is in very promising condition. Reports of injury by fly continue, but they are less numerous

than in the preceding month.

On the Pacific Coast the wheat outlook is reported as excellent, although growth has been retarded by low temperatures of the first and last decades, some damage having resulted from heavy rains in Central North Collings. tral and Northern California.
The Southern States experienced very try-

ing temperature conditions from the 20th to the 25th, when freezing temperature oc-curred as far south as Central Florida. Local conditions are summurized as fol-Mississippi.

Farming operations generally advanced, although slightly retarded by heavy snow and low temperature on 22nd and 23rd; oats being sown in northern and generally up to good stand in central and southern counties; much plowing done; early vegetables being planted; fruit uninjured.

Dry weather first of month retarded farming operations, but general showers with snow in northern portion in second ceade very favorable; wheat making good growth, except in scattered localities where it needs more rain; preparations for cotton and corn making good progress, some corn planted in southern portion; oat seeding progressing; sugar cane about all planted. Arkansas.

Wheat generally in good condition, but in some localities has been damaged slightly by freezing; spring plowing has commenced; some oats and other grain and potatoes are being planted. Tennessee. Alternate freezing and thawing have had bad effect on wheat, which has made little or no progress; snow protection insufficient and the prospect is anything but flattering; in a few counties the crop is reported in fair condition, but generally it is much below the average at this period; seeding oats, breaking soil and other farm work have progressed favorably.

In northern counties wheat was well protected by snow the greater part of the month, but in central and southern sections ground was generally bare, and some damage resulted from alternate freezing and thawing; in general, however, crop continues in good condition, except where damaged by fly.

Missouri.

Cold weather prevailed in northern por-tion, where snow covered wheat, and it is in good condition, but in southern portion it was not covered by snow, and has been in-jured by freezing, and fly; many fields look brown; rye, clover and grass are in fair condition; some corn land prepared.

Kansas.

Favorable month, wheat in good condition and ground moist, except in southwest, where drought is injuring late wheat; much plowing for oats and corn in south; month too cold for germination, but fruit buds not hurt yet.

Indian Territory and Oklahoms.

Wheat is in excellent and it is not become.

Wheat is in excellent condition, with mo's-ture sufficient in soil; farm work in rapid progress; oat, corn and cotton land being prepared, with increased acreage: some oats sown and some gardening done, fine prospect for fruit; cattle doing well. OPERATORS WIN THEIR POINT Scale Agreed Upon Is About What

They Demanded. REPUBLIC SPECIAL. Springfield, Ill., March 1.-The deadlock over the adjustment of the mining scale in Hilnois is broken and it looks like a victory for the operators. In view of the failure

Illinois is broken and it looks like a victory for the operators. In view of the failure of the Scale Committee to produce results the matter was transferred this morning to a subcommittee consisting of nine miners and nine operators. As a result of their deliberations it is announced that the scale in the most hotly contested district, the First, has been agreed upon.

The scale for mining in Northern Illinois will be, as demanded by the operators, the same as last year. This scale fixes the price of mining at Streator and Clark City at 83 cents; Wilmington and associated mines, including Bloomington thin vein, 81 cents; Pontiac, 81 cents; Bloomington thick vein, 71 cents, and Pontiac top vein, 85 cents. The question of drivers' and top men's wages was not taken up at this meeting. The belief, however, is that the whole scale will be completed by to-morrow night.

Herman Justi, Commissioner of the State Operators' Association, said to-night that there was little doubt that the difference between the miners and operators would be adjusted promptly and that the scale would be agreed to by the miners.

There still remain to be settled the question of this attempt of the United Mine Workers to absorb the Holsting Engineers' Union, and several other matters of minor importance. It is believed the conference will finish its work in a day or two.

NO MORE NAVAL RECRUITS.

St. Louis Furnished Better Ma terial Than Eastern Cities.

The temporary United States naval re cruiting station which was opened February 4 in the old Custom-house, at Third and clive streets, will be closed at noon to-day. Lieutenant W. D. Blaner, who has been in charge of the recruiting, will proceed to Paducah, Ky., where he will remain a week, recruiting men and boys for the navy. From Paducah he will go to other points in Kentucky.

Since the recruiting began in St. Louis, less than a month ago, more than 20) men and boys have been enlisted from St. Louis, Missouri. Illinois and other adjacent States.

Lieutenant Blaner says that St. Louis is one of the best recruiting points in the country. For some time rumors have floated about the Custom-house that a permanent naval recruiting station would be established in St. Louis. It is said that St. Louis may set the recruiting station established at Buffalo, N. Y.

Surgeon R. P. Crandall, examining physician, says that 40 per cent of the men and boys who applied in St. Louis were accepted, while in many Eastern cities more than 36 per cent were rejected. and Clive streets, will be closed at noon

Capt. Lucius Creighton Describes His Experience at Gettysburg. REPUBLIC SPECIAL Washington, March 1.—Some one asked Captain Lucius D. Creighton of Missouri,

in the Arlington lobby this morning how it felt to have an arm shot off. Captain Creigh ton served during the war between the States in a Confederate regiment, and his left sleeve hangs empty at his side.

"It does not feel at all," the Confederate veteran answered. "It is chiefly by the lack of feeling that you know you have been hit. I lost my arm at Gettysburg, and when the bullet struck me I couldn't imagine at first what had happened. There wasn't the elightest main: only a slight imagine at first what had happened. There wasn't the elightest pain; on'y a slight tickling sensation, which soon gave way to numbness. In a few minutes my arm seemed to be an enormous weight hanging to my shoulder, but it was not rnill after the amputation had been made that I suffered actual pain. The after effects of losing an arm are not altogether pleasant. You sort of come to miss it in time, but so far as physical suffering is concerned, I would much less rather a bee would sting me."

ADMIRAL SCHLEY COMING HOME

Cromwell Is Assigned to Command South Atlantic Squadron.

REPUBLIC SPECIAL.

Washington, March 1.-Orders were is-sued by Secretary Long to-day assigning Rear Admiral B. F. Cromwell, commandant of the Portsmouth Navy Yard, to duty as the successor of Rear Admiral Schley, in command of the South Atlantic station. It had been expected that Rear Admiral R. D. Evans, who desired sea duty, would be given this assignment, but after consultation with Rear Admiral Crowninshield, Chief of the Bureau of Navigation. Secretary Long decided in favor of Rear Admiral Cromwell, who is senior to Rear Admiral Evans.

Rear Admiral Cromwell will be succeeded as commandant of the Portsmouth Navy Yark by Rear Admiral J. J. Read. Rear Admiral Cromwell will probably relieve Rear Admiral Schley early in April, and the latter ought to arrive in New York by the latter part of that month or early in May. Rear Admiral B. F. Cromwell, commandant

ANOTHER STRIKE REPORTED.

New Gusher Said to Have Been Tapped at Beaumont.

REPUBLIC SPECIAL. Dullis, Tex., March 1.-A report, considered to be reliable, reached Dallas to-night that another wonderful oil strike was made late this afternoon in the Beaumont dislate this afternoon in the Beaumont dis-trict. It is said that a stream of oil is shooting from the new well nearly 200 feet into the air. Efforts to get more definite information from Beaumont to-night elicited the statement that the report is current there, and generally believed. The new strike is reported to have been made about twenty miles from Beaumont.
